## **Assembly Instructions (Rear View Mirror)**

1. Apply Rear View Mirror Glue to back side of mirror mounting post.
2. Tape the post to your windshield for at least 24 hours.
3. Once the glue has dried apply a small amount of Loctite to the double threaded sleeve ends.
4. Thread sleeve into windshield mounted post.
5. Thread opposite end into the rear of the mirror.
6. Adjust the mirror accordingly.
